

ChemTech - Canopy & Tautliner Cleaner

1 Litre

\$ 20.00 + GST

Powerful, biodegradable 'streak-free' cleaner that cleans and protects boat canopies, truck side tautliners and tarpaulins. Break down and removes the toughest grime, soot, traffic film, track & roller grease and insect residue.

FEATURES & BENEFITS

- Canopy & Tautliner Cleaner leaves a streak free, sparkling clean finish.
- Canopy & Tautliner Cleaner protects the vinyl surface to leave a micro-fine polymer film.
- Canopy & Tautliner Cleaner has been purposely designed to be 'high foaming', which once applied actively assists in keeping the product on a vertical surface for longer periods of dwell time.
- The high foaming system also helps to prevent the product from drying too quickly, allowing it more time to penetrate the soils. Effective on grime, exhaust soot, traffic film, track & roller grease and insect residue.
- Powerful formulation designed specifically to clean canopies & vinyl tarps. Canopy & Tautliner Cleaner can also be used for cleaning tents and marquees.
