i.e. roller top (as shown)

or pinned top with support strap and roller

Locking Pins

Curtain Finish & Signage

Clearcoating your curtains will help maintain the look and quality of your curtains. Clearcoating gives a high gloss finish that is much like a graffiti coating, making your curtains easy to clean with detergent and water.

Application of signage - all signage must be applied before the clearcoating process.

We can work with your current signage company or provide this service for you.

Contact us to discuss any signage needs and pricing.
